

We begin a series of Old East Hill Virtual Garden Tours. We start with James Amerson, artist, hairdresser, good neighbor and one who keeps a lovely garden. All garden photos are by James. Thank you for sharing!

1) Why do you tend a garden?

I tend a garden to keep a piece of mind. It allows me to release stress and focus on simpler things.

2) Describe your garden and some of the plants in the garden.

Not anything special to our garden at all. I try to buy plants that spark my fancy. Recently, I'm trying my hand out for plantings from seed.

3) Do you have any tips or advice?

OH lord no! I am the worst one to ask advice about gardening! Am totally flying blind in that department!

4) Does your garden offer any particular benefits in this time of Covid-19 virus and social distancing?

I have always enjoyed playing in the dirt but never more so than now. It is helping me to have a focus and sense of purpose. Looking forward to the day I can eat a salad that I grew from seed myself!
